ZidaProject

Implementation Readiness Questionnaire

Version 2.0 — focused on ZIDA's technical environment for implementation and migration

To	Chief Executive Officer, Zimbabwe Investment and Development Agency (ZIDA)
Attention	ZIDA ICT team
From	Afronovation Team
Date	12 October 2026
Responses due to Afronovation	At your earliest convenience
Classification	Confidential — for ZIDA and Afronovation use only

Purpose

Thank you for your feedback on the first questionnaire. This simplified version focuses only on ZIDA. It asks what Afronovation needs to know to implement ZidaProject and move it from the pilot into ZIDA's production environment, in support of ZIDA's mandate and Zimbabwe's digital agenda.

How to Respond

- Most questions only need a tick. Type any details in the shaded boxes, then save the file.
- "Not sure" is a perfectly good answer. We will work through open points together in a short workshop.
- Please attach copies of the documents listed in the Attachments checklist, and return everything to Afronovation with the form at your earliest convenience.

1. Users and Content

Tells us how large the platform needs to be.

1 Approximately how many people will use the platform in its first year?

ZIDA staff	
Ministry staff	
Investors	

2 Approximately how many projects and documents will be loaded at launch?

Projects	
Documents	

3 **Where are ZIDA's project documents and information kept today?** **(tick all that apply)**

- ☐ Word or PDF files on computers
- ☐ Excel spreadsheets
- ☐ A shared drive or cloud storage (e.g. SharePoint, Google Drive)
- ☐ Another system or database
- ☐ Paper files
- ☐ Not sure

If another system, please name it

How are documents organised today (e.g. folders by sector or project)?

All documents will be migrated into ZidaProject's secure document vault (BridgeVault) once they have been identified and organised.

2. Hosting

Determines where and how the platform will run, and its cost.

4 **Where is ZIDA's own website hosted?**

- ☐ ZIDA's own server
- ☐ A local hosting provider in Zimbabwe
- ☐ A cloud service (e.g. Microsoft, Google, Amazon)
- ☐ Not sure

Hosting provider name, if known

What is the website built with, if known (e.g. WordPress)?

This helps us confirm technical compatibility for a smooth implementation and migration.

5 **Where are ZIDA's other IT systems hosted today?** **(tick all that apply)**

- ☐ ZIDA's own server room
- ☐ A local hosting provider in Zimbabwe
- ☐ A cloud service (e.g. Microsoft, Google, Amazon)
- ☐ Not sure

Provider name, if known

6 Where would ZIDA prefer ZidaProject to be hosted?

- ☐ Afronovation hosts and manages it in a secure cloud
- ☐ On ZIDA's own servers
- ☐ In ZIDA's existing cloud account
- ☐ No preference — Afronovation to recommend

If on ZIDA's own servers or cloud account: which one (provider or data centre)?

Server details, if known: operating system, processor (CPU), memory (RAM), storage, database and web server

If ZIDA hosts the platform, Afronovation will align ZidaProject to the server and can share the exact specification for a dedicated server instance.

7 Must ZIDA's data be stored inside Zimbabwe?

- ☐ Yes
- ☐ No
- ☐ Not sure

8 When does the platform need to be available?

- ☐ Office hours (Monday to Friday)
- ☐ Every day, 24 hours
- ☐ Not sure

3. Email, Web Address and Sign-in

Lets platform emails and staff logins work with ZIDA's existing accounts.

9 Which email service does ZIDA use?

- ☐ Microsoft 365 (Outlook)
- ☐ Google Workspace (Gmail)
- ☐ ZIDA's own email server
- ☐ Other
- ☐ Not sure

ZIDA email domain (the part after @)

10 Which web address should the platform use?

- ☐ Keep zidaproject.com
- ☐ A ZIDA web address
- ☐ Not sure

If a ZIDA web address: please list 2–3 preferred addresses

Who manages ZIDA's web address (domain) today?

Afronovation will make every effort to secure one of the preferred addresses, or a suitable alternative.

11 Which email addresses may investors use to sign up?

- ☐ Corporate business email only (recommended)
- ☐ Any email, including generic addresses (Gmail, Yahoo, Hotmail, Outlook)
- ☐ Not sure

ZidaProject is designed to accept corporate business email only, for investor credibility, with two-step verification (2FA) enforced from the start.

12 Should ZIDA staff sign in using their existing ZIDA work account?

- ☐ Yes
- ☐ No, a separate login is fine
- ☐ Not sure

4. Connections and Processes

Shows how ZidaProject fits with ZIDA's other platforms and ways of working.

13 Should ZidaProject connect with other ZIDA-owned platforms, or run independently?

- ☐ Run independently
- ☐ Connect with other ZIDA platforms (name them below)
- ☐ Not sure

Platforms to connect (e.g. ZIDA website, investment licensing, CRM)

14 Which ZIDA processes should the platform support or reflect? **(tick all that apply)**
